**PROGRESS REPORT FOR THE USE OF ANIMALS IN RESEARCH TEACHING  
OR TESTING**

CPUT-AEC-2

<b>Total used</b>		<b>Total approved</b>	
-------------------	--	-----------------------	--

**E. Ethical treatment of animals**

Indicate whether all ethical considerations and treatment as well as housing, feeding and care of animals has been adhered to, as indicated in the original application, and motivate failure to do so.

**F. Animal health and welfare**

Indicate whether animals experienced any form of disease, pain, suffering, distress, lasting harm or stress not planned for in the original application. State which measures were taken to address this. Indicate the number of animals that were euthanased due to humane endpoints being reached; the number of animals that were euthanased due to unanticipated problems; and the number of animals that were found dead. Describe the relevant post mortem examination findings and the results of diagnostic tests performed.

**G. Training**

Indicate which steps were taken to ensure that appropriate training has been given to those who handle or capture animals, perform procedures on animals, euthanase animals, care for animals, and monitor animal welfare.

--

**H. Brief summary of progress**

Indicate briefly the progress achieved to date in the study or teaching activity. Mention any specific changes or amendments to the study that may be required in future.
