

# BACCALAUREUS TECHNOLOGIAE

---

## ONCOLOGY NURSING

## **Baccalaureus Technologiae ONCOLOGY NURSING (Post-basic qualification)**

### **Course aim**

The course offers nurses registered with the South African Nursing Council (SANC) the opportunity to specialise in oncology or palliative nursing and leads to a qualification as an Oncology Nurse Specialist with SANC.

### **Career opportunities**

This course provides SANC registered nurses with an opportunity to upgrade their academic qualifications and develop an area of specialisation.

The BTech in Nursing leads to registration with an additional qualification in Oncology Nursing (R212).

After obtaining the BTech in Nursing, a further six months of study is optional and will lead to registration with SANC as a Nurse Manager.

### **Admission requirements**

- Proof of current registration as a general nurse with SANC and membership of a professional body for indemnity purposes e.g. DENOSA/NEHAWU or others. Both registrations have to be maintained for the duration of the study period.
- A recent curriculum vitae must accompany the application form.

- A letter indicating at least two years experience after qualification as a Registered Nurse, must also be provided.

### **Programme structure**

Oncology Nursing (R212)  
Nursing Management 4  
Nursing Research 1  
Medical-surgical Nursing 4  
Oncology Nursing Science 4

### **Duration of course**

Part-time: Two years (5 block sessions over a period of two years)

### **Medium of instruction**

English

### **Venue of offering**
