POSTGRADUATE DIPLOMA IN CLOTHING AND TEXTILE TECHNOLOGY

We are the
only university
in South Africa
offering a
Postgraduate Diploma
in Clothing and
Textile Technology
qualification,
NQF 8.

As the only University of Technology in Western Cape, we provide a platform for various Clothing and Textile related academic and research activities for developing skilled researchers, scientists and technologists in the field to support the industrial need.

Graduates holding this qualification will possess the much-sought industrial knowledge on sustainable processes, latest innovative textile products, independent research skills, advanced textile technology processes and specialized global supply processes.

Students will be exposed to manufacturing systems such as three-dimensional (3D) printing, nonwoven production, concept of micro factories as well as exposure to the personal protective equipment (PPE) laboratories.

The students will be prepared to develop new products, systems, processes in clothing and textiles as well as advanced product analysis through research and development.

Subjects covered through this qualification are:

Sustainable Clothing and Textile Technology; Advancement in Innovative Textile Products and Processes; Technical and Smart Textiles; Advanced Supply Processes in Clothing and Textile; and Research Methodology and Projects 1.

MINIMUM ADMISSION REQUIREMENT

- An NQF level 7, Advanced Diploma; Bachelor of Technology; or Bachelor's qualification in Clothing Management or a cognate qualification.
- Students should obtain an average of 60% for the qualification, or 60% in the final year of the NQF level 7 qualification. or
- If the applicant does not have the average of 60%, an additional requirement of at least 12 months of relevant Clothing and Textile experience post obtaining the NQF level 7 qualification would be required.

International qualifications must be evaluated by SAQA
