

FINANCIAL AID

ADVICE AND PROCEDURES

ADVICE TO STUDENTS

WHAT IS A BURSARY, SCHOLARSHIP AND LOAN?

1. Bursaries

A bursary is an amount of money made available to a student under certain conditions. It is not expected of the student to repay the money if he/she successfully completes his/her studies.

Bursaries are granted to students on the basis of:

- (a) Financial need
- (b) Academic merit
- (c) A combination of financial need and academic merit
- (d) Encouraging students to study in a specific field
- (e) As an incentive to accepting a service contract with the company granting the bursary.

2. Loans

A loan is an amount of money given to a student for his/her studies on condition that all the money is repaid once the student has completed his/her studies.

Loans are granted on one or more of the following conditions:

- (a) That the loan will be subject to a low interest rate.
- (b) That the repayment period is predetermined.
- (c) Usually a guarantor is needed, i.e. someone who repay the money should the student fail to do so.
- (d) That the student sign a legal contract which binds him/her to repay the money. Failing repayment the lender can be taken to court.

3. Scholarship

A scholarship is an amount of money given to a student based on his/her past academic excellence. It is usually only given for academic merit. Scholarships usually have no employment conditions, repayments or general conditions attached.
